Lunya  
Catalonian Deli, Bar & Restaurant

**It's Elaine here, co-owner of Lunya with Peter**

Over the last few years, I have been having treatment for cancer (Thyroid and Myeloma). My Thyroid cancer is now cured and my Myeloma (a blood cancer) whilst incurable, is now in remission thanks to the fantastic work of the staff at the Clatterbridge Cancer Centre and Arrowe Park Hospital.

We have always supported charities from the beginning and now are raising funds for The Bloom Appeal, a local charity to support people living with blood cancer in Merseyside as well as a number of other local and national charities. Each table's bill has a voluntary £1 donation added to it. We personally top this amount up, too. So far, together, we have raised nearly £100,000. If you don't want to make this donation, please just let your server know and we'll take it off. It's not a problem at all. Your server or our sign by the bar will tell you which charities we are currently raising funds for. We try to benefit as many as we can.

**Thank you so much for your support, Elaine xx**
